

# WATER TREATMENT FACILITY EXPANSION CONSTRUCTION SAFETY

## YOUR SAFETY IS THE #1 GOAL

Now that construction for the Carver Water Treatment Facility Expansion is underway, it is important to take proper safety precautions when near the construction site. These precautions are for your safety, the safety of the construction team, and for protection of the project.

### **1** DO NOT WALK THROUGH THE CONSTRUCTION AREA ON TOWER LANE

Tower Lane is being used to store construction equipment and will therefore be closed until the end of 2021. Walking on or through Tower Lane is **prohibited** for your safety. Avoid the project area by walking on Christy Drive or Forner Lane.

### **2** PROMOTE PROJECT SAFETY TO OTHERS

If you see someone in the project area that is not a construction worker, help keep them safe by letting them know that the area is restricted to the public.
